

Professional Development Certificate

DATE: June 25, 2024 – Fort Cavazos, TX

SPEAKERS: Nancy Beltran & Randy Bowers – Cement Council of Texas
Corey Zollinger – RCC Pavement Council
Fares Abdo – Morgan Corp
Taylor Cooksey – Rollcon, LLC

PROGRAM: Roller-Compacted Concrete Workshop

The program incorporated technical presentations, a question-and-answer period, the construction site visit, and peer-to-peer exchange. The site visit included seeing the pugmill operation and the 40-year-old RCC pavement at the 2-83 motor pool. That was followed by viewing live the mixing, placement, compaction, curing, and quality assurance testing on a new section at the I-9 Motor pool located on base at Fort Cavazos. The speakers discussed the history, design, construction methods, and case studies of roller-compacted concrete pavement.

LENGTH: 5.5 hours = 5.5 PDH

The licensed professional, by signing his or her name in the space provided, documents that he/she was in attendance and that the above-referenced topic is relevant to his/her practice and therefore meets PDH requirements.
