

Certificate of Professional Development Hours (PDH)

PROGRAM TITLE:	Concrete Pavements and Cement Stabilization Workshop
DATE:	May 22, 2025
LOCATION:	Houston Community College – North Forest Campus 10750 Homestead Rd. Building C – Room C-128 Houston Texas 77016
SPEAKER(S):	Nancy Beltran, Ph.D., Cement Council of Texas Randy Bowers, P.E., Cement Council of Texas Ben Reese, P.E., Raba Kistner Lisa Lukefahr, P.E., Texas Concrete Pavement Association (TCPA) Corey Zollinger, P.E., Cemex USA
PROGRAM DESCRIPTION:	This workshop provided technical presentations on concrete pavement design, cement-stabilized layers, and sustainable construction practices. Attendees gained insights into foundation design, material performance, and implementation strategies through case studies and expert-led sessions. The program offered practical knowledge to support durable, long-lasting pavement solutions for public infrastructure.
LENGTH:	5 Hours = 5 PDH

The licensed professional, by signing his or her name in the space provided, documents that he/she was in attendance and the above referenced topic is relevant to his/her practice and therefore meets PDH requirements.
